

SUCCESSFUL CO. FAIR IS CLOSED

Crowd in Attendance Increases on
Second Day but J. Pluv.
Butts into Program
at Wind-Up

PARTIAL LIST OF PRIZE WINNERS

Awards All Made But Not Available
for Publication; Judge Pays
Fine Tribute to Grady
County Livestock

The Grady county fair has come and gone. The awards have been made and the fair has passed into history as one of the best, if not the very best in southwestern Oklahoma. The first day's attendance was exceptionally large for an opening day, the second day's attendance was larger still, after an promising opening, and today, the third and closing day, promised to be a record breaker and would have been had not the weather man ordained otherwise and opened the flood gates of the heavens, following the threats which he has been making for the past several days.

With the hall holiday which all schools of the county had arranged to give, the crowds which would have attended today would have taxed the grounds to the utmost. Even as it was, with intermittent showers, following the steady downpour of the early morning, many were at the fair grounds from both the city and the county.

Practically all the awards were made Tuesday afternoon.

The Express regrets that the list of prize winners in the live stock was not available today. Earnest efforts failed to learn the names of the winners in the greater part of all the contests for supremacy in live stock breeding and in farm products, but it is expected that the list of awards will be in shape for publication tomorrow.

In the boy's stock, or pig clubs, two contestants, both of the western portion of the county, are practically tied for first place.

In the award of the prizes to the boys' and girls' clubs on corn, judged by F. F. Ferguson, district agricultural agent, the first prize was awarded to Larry Whalen, a girl; the second to Leo Whalen, her brother; the third to Neeley Harper, the fourth to Harry Orme; the fifth to Ira Cast; the sixth to Stewart Harper; the seventh to Fred Copeland; the eighth to Oland Cast; the ninth to Jessie Raines, a girl; the tenth to Charley Folmer.

In the fifty ear exhibits of boys' corn clubs, Gus Dogenodger of Pocatset, walked away with first prize and N. L. Bruner of Chickasha captured the second, while Robert Hopkins of Chickasha won the first prize in the same line with yellow corn.

In commenting upon the products of the boys' labors the judge remarked that the boys had their fathers outclassed as producers at a ratio of an even two to one.

Tattle Scores High.
Tattle has carried off the first honors at the county fair, with Minco a close second, and Amber running in third place and crowding both Tattle and Minco in the list and variety of exhibits.

D. B. Marsteller, agricultural agent at Anadarko, acted as judge in deciding between the townships and expressed himself in the highest and most eulogistic terms of the manner in which the people of the townships of the county had responded to the call of the fair board and brought out their best exhibits.

Beginning this evening Agent Cooper and officers of the fair association will begin the work of packing up the best exhibits for shipment to the Oklahoma state fair. Practically everything in the Tattle, the Minco and the Amber exhibits will be taken to Oklahoma City, as will the greater number of the prize winning exhibits from the boys' and girls' clubs.

G. L. Crawford of the Murray school, Tahomah, passed upon and awarded the premiums at the live stock show. In commenting upon the live stock exhibited at this fair, Mr. Crawford said, "This is the eighth county fair at which I have acted as judge this fall and I can truthfully and con-

scientiously state I have seen the best stock here that I have seen at any of those fairs. I am not saying anything to detract from the merit or the purity of the strains of live stock shown at other fairs, but I am repeating Grady county's live stock surpasses any shown in the seven county fairs at which I acted as judge before coming to and judging Grady county's horses, cattle and hogs.

Poultry Show.
R. M. Evans, in charge of the poultry exhibit, is still one of the busiest men about the Grady county fair.

In the poultry pens housing was found for 541 birds and 103 first, second and third premiums were awarded by Howard Sled, judge, of Mounds.

A large number of the birds exhibited were disqualified for different reasons, clipped wings predominating as the disqualifying cause.

Mr. Evans did not know whether any of the poultry would be taken to the state fair, but thought it probable some of the pens would be.

Mr. Evans stated that a number of breeds of which he had read in poultry magazines were represented.

(Continued on Page Two)

SOON KNOW BEST BABE

The awards in the better babies contest will be made tomorrow, and it is expected that the prize winners will be winners in the perfect baby line. The large number entered and competing, together with the additional fact that so many of that number are almost eugenically perfect, is making the final decision of the judges a most difficult one.

Dr. Martha Riedsøe, whose tireless efforts made the better babies contest the success of the fair, has worked earnestly in the endeavor to see that each one of the numerous little fellows present received the best and the kindest of all kind treatment, and to see that in the awarding of first, second and third prizes, honor shall be given where honor is due.

DRAW JURY FOR TERM

The jury has been drawn for the regular October term of the district court. The venire contains forty names from which not less than three panels of twelve men each, will be drawn.

The jurors have been notified to be in court Monday, October 4.

The coming term of district court promises to be a most busy one and will probably continue well into December before final adjournment will be taken. The jury, however, will not be retained later than the latter part of October. Following the discharge of the jury the court's time will be occupied in disposing of non-jury cases, hearing and taking action upon motions and other routine court business.

NINNEKAH FAIR PROVES SUCCESS

Ninnekah, Okla., Sept. 22.—The township fair held here Saturday proved a great success. Among the winning premiums were the following:

Peaches—Mrs. J. M. McLemore, first; Mrs. D. A. Wood, second.

Plum butter—Mrs. J. M. McLemore, first.

Butter—Mrs. C. M. Lantz, first; Mrs. E. D. Thornton, second.

Butter beans—Mrs. E. D. Thornton, first.

Kentucky Wonders—Mrs. E. D. Thornton, first.

Tomatoes—Dave Boswell, first.

Corn—Geo. Boswell, first; H. A. Gardner, second.

Apples—Dr. Gerard.

Grapes—Mrs. Duke.

Joe Anderson pulled down first prize for pumpkins, kaffir corn and watermelons.

WEATHER FORECAST.

For Oklahoma.

Partly cloudy tonight and Thursday. Somewhat warmer Thursday.

Local Temperature

During the twenty-four hours ending at 8 a. m.

Maximum 69

Minimum 55

BUYS FINE FARM.

R. A. Wright purchased a fine farm today four miles south of the city. Mr. Wright intends to build a home on it immediately and will move his family there.

CONDITIONS IN DAIRIES INSPECTED

State Officer Finds that Some Milk
Factories Fail to Comply with
Law; Serves Notice for
Prompt Clean-Up

H. A. Morey, deputy dairy inspector, connected with the state board of agriculture, with headquarters at Oklahoma City, was in Chickasha yesterday and acting in conjunction with Dr. L. E. Emanuel, county health officer, made a thorough inspection of the dairies from which the city draws its milk supply.

Those dairies, totalling seven in number, are known as Larsen's, Baker's, Bruton's, Slaughter's, Rock Island, Wythe's. The total number of cows in all dairies was 148.

The inspection disclosed the fact that while some of the dairies were in first class condition in every particular, others were in only fair condition, while still others were in absolutely unsanitary condition.

The law requiring the tubercular test for dairy cows, it was found, had been complied with by a part of the dairy owners, while others had neglected to conform with its requirements.

All dairy owners whose premises were found in any but the best sanitary condition were notified to clean up and otherwise comply with the law regulating their business, or go out of business forthwith.

One dairy, Dr. Emanuel and Mr. Morey state, was found to be in such a condition that it may be said to be absolutely unsafe, a menace to the health of the community at large—especially to the health of children.

"There is no means that may be so sure of conveying diseases to the human family as those found in unclean milk," said Dr. Emanuel. "Microbes and germs of all diseases, especially typhoid germs, find a great breeding ground in unclean milk. The infant who is nourished from cow's milk is especially susceptible to diseases and the germ which is bred, fostered and scattered in the milk of an unclean and filthy dairy, is constantly lying in wait for the opportunity of finding an abiding place in the system of the innocent infant."

There are heavy penalties to the keeping of dairies in unsanitary condition. This law applies to the manner in which milk cans and other equipment of the dairy are kept, to the matter of the tubercular test and to the manner in which the cattle may be housed and the milking done and the milk cared for after drawn from the cow.

Those dairies which have fallen into evil ways in the matter of allowing filth to take the place of cleanliness and sanitation, will have to come across in the matter of cleaning up or go out of business. One dairy, Dr. Emanuel states, has received its second notice and this, the doctor avers, will be the last notice served.

LYNCHING PROBABLE WHEN NEGRO IS CAUGHT.

By United Press.
Houston, Sept. 22.—Mrs. Ashton Grubbs, the young wife of a farmer living near Devers, is in a critical condition as the result of an assault by a negro late yesterday.

Posses are searching for the woman's assailant and it is believed that a lynching will follow in the event the negro is captured.

WINNERS IN DEPART. OF EDUCATION

Judges Announce Awards on Exhibits Made by Rural, Village and City Schools of County at Fair

MUCH WORK OF MERIT DISPLAYED

Is Difficult to Render Decisions; Chickasha Shows Up Strongly; Marked Ingenuity Manifested by Students

After an arduous two hours work the committee on awards, in the department of education, made the choice of prize winners Tuesday afternoon. The judges were Miss Wilson, teacher of fine arts at the Oklahoma College for Women; G. F. Newell, former county superintendent, assisted by Mrs. M. H. Shepard.

The winners of the first, second and third prizes were:

Rural schools—Freeman, Shepard, loving cup, first; Pleasant View, pennant, second; Waldron, ribbon, third.

Village schools—Minco, Amber, Union Hill, Verden, contestants. Prizes were awarded to Amber, Shepard loving cup, first; Minco, pennant, second; Union Hill, ribbon, third.

City Schools of Chickasha.

West building school, loving cup, first; South building, pennant, second; North building, ribbon, third.

High school—Manual training and bench work, first prize, \$2 cash; second prize, \$1 cash; third prize, ribbon.

Grade Schools.

Best exhibit hand work, first, to first grade in West building; second, to first grade in North building; third to first grade in South building.

Best set free hand drawings—West school, first; North school, second; South school, third.

Second grade—Freehand work. First prize, North school, second prize, West school.

Third grade—Best hand work, South school, first; West school, second; North school, third. Best freehand drawing, North School, first; West school, second; South school, third.

Fourth grade—Best handwork, South school, first; West school, second; North school, third. Best set maps Oklahoma, West school, first; North school, second; South school, third.

Fifth grade—Best freehand drawing, North school, first; South school, second; West school, third.

Best maps of Oklahoma, South school, first; North school, second; West school, third.

Best map of Oklahoma, South school, first; North school, second; West school, third.

Seventh grade—Seventh in high school, first; North school, second; West school, third.

Best map of United States, West school, first; North school, second; South school, third.

Eighth grade—Eighth in high school, first, second and third prizes.

The judges in making the awards stated they had close work in rendering their decision, as all work was so meritorious it was most difficult to draw the line of demarcation between the "good, better, best."

The exhibits placed by the city schools reflect the greatest credit upon both pupil and teacher. Nothing could better illustrate the careful, painstaking and the systematic manner in which the grade teachers, the high school teachers have worked in hearty accordance and conjunction with Prof. W. F. Ramey, superintendent of city schools.

From the work exhibited by pupils of the high school and of the higher grades, on down to the handwork of the little tots in the lower grades, the same evidences of careful and well thought training is in evidence. The careful adherence to detail which may be found in the work of the more advanced pupils, especially the maps of Oklahoma and of the United States, when placed side by side with the more or less eccentric work of the little fellows whose minds are just beginning to bud, all to go to show that the little fellows are today receiving the same careful initiatory training which the high school pupils of the

PARADE IS POSTPONED

The Trades and Flower Parade was postponed till 4 o'clock tomorrow afternoon.

The places of formation and line of march will be as originally announced. Everybody participating is requested to be ready at the time designated.

SUBWAY IS SCENE OF DISASTER

Six Known Dead and Scores Injured by Cave-in, Carrying Down Crowded Surface Car Amid Confusion

By United Press.

New York, Sept. 22.—According to the best information available at noon today, six persons lost their lives and over two hundred were injured by the collapse of the new Seventh avenue subway between Twenty-fifth and Twenty-third streets early today.

The cave-in followed a dynamite blast which was touched off in the subway still under construction. Sixty of the victims are being treated in hospitals and others in nearby buildings.

By United Press.

New York, Sept. 22.—At this hour it is known that three men and one woman were killed and scores of persons injured when two hundred persons dropped thirty feet into a cave-in in the Seventh street subway this morning.

A whole block gave way between Twenty-third and Twenty-fourth streets, carrying down a crowded Seventh avenue surface car, which was crushed under the debris.

Estimates of the dead vary widely on account of the great confusion, ranging from four dead to twenty-five.

A big brewery truck also went down in the crash. Many persons were thrown from the sidewalks, tumbling in the huge pit, and every one in the street itself was engulfed.

There is a report that an explosion preceded the cave-in but it has not been verified.

INDICTED FOR BOAT DISASTER

Six Steamship Company Officials and Two Federal Inspectors Held Responsible by U. S. Grand Jury

By United Press.

Chicago, Sept. 22.—Six steamship company officials and two federal steamboat inspectors were indicted today by the federal grand jury on charges of conspiracy and criminal carelessness in connection with the Eastland disaster.

Those indicted on two counts were George P. Arnold, president of the Chicago and St. Joseph Steamship company; Wm. H. Hall, vice president and general manager; Walter C. Steele, secretary and treasurer; Harry Pederson, captain; J. M. Erickson, chief engineer; Chas. E. Eckliffe and Robert Reid, government inspectors.

Walter Greenbaum, president of the Indiana Transportation company, was indicted only on the charge of criminal carelessness. Federal Judge Landis opens bids on the purchase of the steamer this week to be used in passenger service again.

Indictments on both charges were also returned against the steamship and transportation companies as corporations.

SERBS ASK BULGARIA TO EXPLAIN

Want to Know Meaning of Troop Massing on Border; Declaration of War in 48 Hours is Predicted

BULGARIA FIGHTERS CALLED TO COLORS

Infantry and Cavalry Ordered From Sofia to Frontier; Russians Report Riga and Petrograd Safe from Attack

By United Press.

London, Sept. 22.—Advises received here today say the war spirit is rampant in the Balkans.

Servia has demanded from Bulgaria an explanation of the massing of troops on her border and a Bulgarian declaration of war is expected within forty-eight hours.

A declaration of war by Bulgaria, it is believed, would be followed by the mobilization of the Greek armies in the interest of Servia.

A cable message from Washington reporting the mobilization of the Bulgarian army has not been confirmed at Sofia. The censorship is apparently tightened at the Bulgarian capital. Rumors from Swiss sources say an Austro-German invasion of Servia is scheduled for early next week.

By United Press.

Athens, Sept. 22.—Dispatches reaching here today say four divisions, consisting of one hundred sixty thousand men and cavalry regiments stationed at Sofia were ordered to proceed to the Servian frontier.

All Bulgarian officers on leave of absence have been recalled to the colors, according to reports.

Bulgars Called Home.

By United Press.

Copenhagen, Sept. 22.—All Bulgarians residing in Austria and Germany have been recalled to the colors, say reports received here.

Report Russ Victories.

By United Press.

Petrograd, Sept. 22.—The war office declared today that Riga and Petrograd are safe from attack as the result of Russian victories around Dvinsk and the reported withdrawal of German troops for a Balkan drive.

Results of Letter Episode.

By United Press.

Washington, Sept. 22.—These results are probable from the publication of the letters carried by James Archibald, the American newspaper correspondent, who served as the messenger of the Austrian ambassador.

The punishment of Archibald for alleged violation of neutrality; the recall of Capt. Von Pappen, military attaché of the German embassy, and Austrian Consul General and Consul Schwegel at New York.

No action will likely be taken against Ambassador Bernstorff. The department of justice is investigating to learn whether Archibald was in the pay of the Austro-German governments.

EVENTS IN THE WAR ONE YEAR AGO TODAY.

China has replied to Germany's protest against the landing of Japanese troops in China, saying she is unable to defend her neutrality.

Heavy fighting is reported in France, the Germans attacking vigorously southeast of Verdun and claiming success.

The French war office reports an advance of eleven miles in an effort to envelop Gen. Von Kluck's army on the right of the German line.

Late reports indicate 1133 British seamen were lost and 1067 saved by the sinking of three cruisers in the North sea.

Austrian cruiser Maria Theresa and Admiral Stant were badly damaged in a fight with the French fleet in the Adriatic.
